

Are There Jellyfish In Cozumel?

Across

4. The surroundings or conditions in which a person, animal, or plant lives or operates.
 6. A species of jellyfish known for its translucent, moon-like bell.
 12. The natural home or environment of an animal, plant, or other organism.
 13. Marine invertebrates in the class Anthozoa that form coral reefs, which are important marine habitats.
 16. The condition of being protected from or unlikely to cause danger, risk, or injury.
 17. A vast body of salt water that covers almost three-quarters of the earth's surface.
 18. A transparent, odorless, tasteless liquid that forms the seas, lakes, rivers, and rain and is the basis of the fluids of living organisms.
 19. A pebbly or sandy shore, especially by the ocean between high and low water marks.
 20. The sport or activity of swimming or exploring under water, typically with the use of scuba gear.
 22. A phenomenon where a large number of jellyfish proliferate in a given area.
 24. A ridge of jagged rock, coral, or sand just above or below the surface of the sea.
 25. A region consisting of the Caribbean Sea, its islands, and the surrounding coasts.

Down

1. The commercial organization and operation of vacations and visits to places of interest.
 2. A highly venomous species of jellyfish with a box-like shape.
 3. A sharp, often painful sensation or injury inflicted by the pointed part of an animal, plant, or object.
 5. The time of year when jellyfish are most abundant and active in a particular area.
 7. The practice of swimming on or through a body of water while equipped with a diving mask, a shaped tube called a snorkel, and usually fins.
 8. Aquatic creatures with gelatinous, umbrella-shaped bodies and trailing tentacles, capable of delivering stings to humans and other species.
 9. The physical world collectively, including plants, animals, the landscape, and other features and products of the earth, as opposed to humans or human creations.
 10. Related to the sea; oceanic.
 11. An island in the Caribbean Sea off the eastern coast of Mexico's Yucatán Peninsula, known for its coral reefs and as a popular tourist destination.
 14. A biological community of interacting organisms and their physical environment.
 15. A large body of salt water that is often connected to an ocean and may be partially or completely surrounded by land.
 21. A piece of land surrounded by water.
 23. A group of living organisms consisting of similar individuals capable of exchanging genes or interbreeding.
